FOREVER CHANGE HOW YOU TREAT ACNE

Forever Young System destroys acne-causing bacteria, reduces inflammation and redness, and makes way for clear, healthy skin. Offer patients an alternative to expensive creams and medicine with undesired side affects. Forever Young System is fast, comfortable and non-invasive — with visible results after just one treatment, with no patient downtime.

Step
1

Deliver **BLUE** light into the skin, attacking acne bacteria.

Step
2

Then deliver **YELLOW** light, which reduces active inflammatory acne while preventing new breakouts and reducing the appearance of scars.

Step
3

For added benefit, deliver **INFRA-RED** light in rapid, gentle pulses to initiate the body's natural healing process and to enhance the benefits of the first two steps.

FYS CHANGE HOW YOU TREAT UNWANTED HAIR

Unlike traditional hair reduction devices that apply energy one pulse at a time, Forever Young System uses motion technology to deliver a low fluence in multiple pulses, protecting the skin while progressively raising the follicle temperature to the optimal level for hair removal.

- Safe and fast treatments thanks to large spot size and motion technology
- Easy, versatile treatments with intuitive user interface, quick change Smart Filters
- Cooling technology for enhanced patient comfort
- Skin types I-V

Help patients reveal their soft, smooth skin without the hassle of shaving, tweezing or painful waxing.

REVEAL *soft smooth skin*
without hassle of shaving
